

COMPANY PROFILE

PT DUTA BORNEO MINING

DRILLING SERVICES

Dalam hal penunjang usaha, kami telah mempunyai unit-unit Rig yang dibutuhkan dalam hal eksplorasi dan kami siap untuk pekerjaan drilling hole dangkal dan hole dalam dengan Size hole mulai dari size BQ, NQ, HQ dan PQ.

PENDAHULUAN

INTRODUCTIONS

Di zaman era kemajuan industri dunia yang semakin pesat maka dibutuhkan pula sumber energi yang bisa menggantikan minyak dan gas bumi. Dimana kita tahu Indonesia adalah sebagian dari negara yang mempunyai sumber energi alternative selain minyak dan gas bumi yaitu batubara.

The era of the industrial revolution has improved rapidly these days therefore the world needs another source to replace oil and gas. Indonesia as known as one of the biggest countries that has some alternative energy resources other than oil and gas. The alternative energy resource itself called coal.

Dimana batubara adalah sumber energi yang sangat dibutuhkan saat ini selain minyak dan gas bumi, yaitu terutama untuk pembangkit listrik, maka sangat dibutuhkan perusahaan-perusahaan pendukung tambang yang sangat handal dalam hal eksplorasi, logging dan sebagainya maka dari itu kami PT. Duta Borneo Mining sangatlah respek dalam hal kualitas pengeboran batubara baik dalam hal Open Hole maupun Coring yang sangat dibutuhkan untuk pengambilan sample oleh perusahaan tambang.

Other than oil and gas, coal is strongly needed mostly for power plants. Hence, the existing of mining support companies is also very important due to the process of exploration, logging and so on therefore. PT. Duta Borneo Mining exists, fully aware and appreciates its quality, especially when it comes to the open hole and coring procedure which is exceptionally needed for the minein order to get the sample.

PT DUTA BORNEO MINING

PT DUTA BORNEO MINING

Perusahaan Eksplorasi PT. Duta Borneo Mining didirikan sejak tahun 2010, yang berkantor di Komplek BORNEO PARADISO, Ruko MAHOGANY Blok B No. 02, Jl. Mulawarman RT 02, Batakan, Balikpapan.

As an exploration company, PT. Duta Borneo Mining was established since 2010 and located in Borneo Paradiso Housing Complex, Mahogany Block B No. 2 at Mulawarman Street RT. 23, Batakan, Balikpapan City.

Ruang lingkup kegiatan adalah eksplorasi batubara dan mineral yang meliputi pekerjaan Open Hole, Coring dan Full Coring.

The scope of activity is to explore coal and mineral from the overall process of open hole, coring and full coring.

PT. Duta Borneo Mining didirikan oleh para Profesional Drilling yang memberikan mutu dan ketepatan waktu dalam hal jasa Pengeboran batubara dan mineral, untuk mencapai komitmen ini, kami para profesional drilling siap untuk bekerja keras sesuai dengan kebutuhan eksplorasi tambang batubaradan mineral.

PT. Duta Borneo Mining was founded by the professional drillers that dedicated their quality and their consistency within the coal and mineral drilling job. So, to reach out the commitment, our professional drillers are prepared and well equipped to work hard based on the needs of the coal and mineral mining exploration.

Dalam hal penunjang usaha kami, kami telah mempunyai unit-unit Rig yang dibutuhkan dalam hal eksplorasi dan kami siap untuk pekerjaan drilling hole dangkal dan hole dalam dengan Size hole mulai dari size BQ, NQ, HQ dan PQ.

In order to support the efforts, our company has several Rigs that are needed for the exploration and our company is also prepared for shallow hole and deep hole drilling starts with size BQ, NQ, HQ and PQ.

PT DUTA BORNEO MINING

VISI DAN MISI

VISION AND MISSION

VISI

Bertekad menjadikan perusahaan Kontraktor pengeboran yang professional dan terkemuka di sektor pertambangan dan berkomitmen tinggi terhadap aspek keselamatan, kesehatan kerja dan lingkungan hidup serta memberikan pelayanan yang terbaik untuk mencapai hasil yang Maksimal

VISION

Determined to make the company as the leading and professional drilling contractor in mining which is highly committed to health, safety and environment (HSE) by providing the best services to achieve maximum results

MISI

- Menjadikan PT. Duta Borneo Mining sebagai partner yang handal untuk perusahaan tambang
- Memberikan pelayanan dan nilai tambah yang terbaik kepada perusahaan pertambangan, karyawan dan masyarakat
- Membangun dan menciptakan kualitas hasil Kinerja yang optimal
- Meningkatkan kompetensi dan mengembangkan perusahaan, agar tercipta prestasi yang terbaik.

MISSION

- To make PT. Duta Borneo Mining as a reliable partner for mining companies.
- To provide best services and giving the best value added to the mining companies, employees and the community.
- To build and create the optimal quality of our performance.
- To increase the competences and develop the company to create the best achievement.

PT DUTA BORNEO MINING

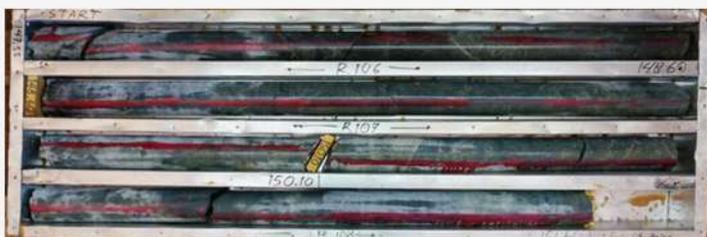

LAYANAN KAMI OUR SERVICES

PENGEBORAN EKSPLOKASI TAMBANG *Exploration Drilling*

Kami memberikan program pengeboran yang efisien dan fleksibel untuk eksplorasi mineral dan pertambangan klien. Dengan menggabungkan peralatan yang handal dan dengan pengalaman yang sudah terbukti serta layanan prima kepada pelanggan dengan tujuan melebihi ekspektasi klien setiap waktu.

Our company delivers such an efficient and flexible drilling program for mineral exploration and client mining with the combination of reliable equipment, proven experiences and the outstanding services, to reach out one particular goal which is to exceed client expectation all the time.

PENGEBORAN GEOTEKNIK *Geotechnical Drilling*

Kami beroperasi di semua medan rig pengeboran, memungkinkan eksplorasi geologi untuk mendapatkan data geoteknik yang diperlukan, bahkan untuk kondisi yang belum diketahui hasilnya.

Our company operates in any fields which enabling the geology exploration to gain geotechnical data required, even for the condition with unknown results.

PT DUTA BORNEO MINING

KEUNGGULAN SUPERIORITY

Sebagai perusahaan bergerak di bidang explorasi pengeboran tentunya kami memiliki keunggulan tersendiri yang dapat menjamin kepuasan para klien yang bekerjasama dengan kami

As a company engaged in the field of drilling exploration, of course we have our own advantages that can guarantee the satisfaction of the clients who work with us

PROFESIONAL

Semua pegawai kami merupakan tenaga kerja memiliki pengalaman dan berkompeten dibidangnya

PROFESSIONAL

All of our employees are workers who have experience and are competent in their fields

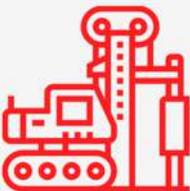

JAMINAN MUTU

Kami berkerja mengutamakan jaminan kualitas dan kepuasan pelanggan. ketepatan waktu dan penggunaan perlengkapan berkualitas merupakan indikator keberhasilan kami

QUALITY ASSURANCE

We work to prioritize quality assurance and customer satisfaction. timeliness and use of quality equipment are indicators of our success

UNIT TERBUKTI HANDAL

Kami memiliki mesin pengeboran yang sudah teruji kualitas di berbagai wilayah dan sudah menyelesaikan banyak pekerjaan

UNITS PROVEN RELIABLE

We have drilling machines that have been tested for quality in various regions and have completed many jobs

PT DUTA BORNEO MINING

JACRO 175 OUR EQUIPMENT

OPERATIONAL RECOMMENDATIONS

Capacity Drilling Deep Down:

- AW 100 Meters (Special Conditions)
- NQ 100 Meters (Special Conditions)
- HQ 50 Meters (Special Conditions)

TECHNICAL SPECIFICATIONS

- Engine: 1 Cylinder Diesel Greaves,
- Power: 9 HP,
- Hydraulic Power: By Marzochi, Pressure maximum 2500 psi,
- Hydraulic Tank: Capacity 80 liters,
- Diesel Fuel Tank: Capacity 6 liters, Hand-Control Valve Rotary hydraulic motor head-Full/Down (Up/Down)
- System, Rotary Head Motor: RH 1/2-Capacity Torque: 180 NM (1590 lb-in)
- Speed: 0 to 580 rev / min,
- Pressure: 0-2000 psi -In/ Out Port: ½ " SAI O Ring,
- Up - Down Motor: RH 2 / 2-

 Engine RPM 2,500rpm

CORTECH CSD1300L OUR EQUIPMENT

CSD1300L core drilling rig dirancang khusus untuk pengeboran Diamond Core. Track rig crawler yang dipasang memudahkan pergerakan dengan tingkat kenyamanan yang besar. Struktur yang kuat ditambah power supply yang kuat menjamin tingkat penetrasi yang tinggi dan kehandalan yang luar biasa. Konsep Full Hydraulics itu sendiri mencakup hampir semua fungsi operasional yang berlaku pada model-model terbaru di seluruh dunia.

CSD1300L core drilling rigis specially designed for diamond drilling core. The rig crawler track is meant to beinstalled to make the movement easier and comfortable. The structure and the strong power supply itself guarantee its high penetration rate and outstanding reliability. Full Hydraulics concept itself includes almost all the operational functions that can be found at the latest models around the world.
